

Abrasive Blasting

Chapter 296-818 WAC

Index

A

- Application, chapter scope, **100-1**
- Abrasive blasting
 - combustible organic, **300-2-3**
 - operations, **300-2-5**
 - personal protective equipment (PPE), **200-3-5**
 - separator, **400-4**
- Access blast cleaning enclosures,
 - doors and openings, **300-3-4**
- Accumulated dust, exhaust ventilation systems, **400-4**
- Air flow, blast cleaning enclosures, **300-3-4**
- Air inlets, and access openings, blast cleaning enclosures, table 2, **300-3-4**
- Airborne contaminants, blast cleaning enclosures, **300-3-4**
- Aisles, clear, housekeeping, **200-6**
- American National Standards Institute (ANSI), exhaust ventilation systems, **400-2-3**
- Aprons, personal protective equipment (PPE), table 1, **200-4**
- Automatic blast cleaning systems, combustible organic abrasives, **300-2**

B

- Blast cleaning enclosures and recommended inward air velocities, helpful tool **R-6**
- Blast cleaning
 - enclosures, table 2, **300-3-4**
 - equipment, discharging air, **400-4**
 - nozzles, **300-5**
 - rooms, personal protective equipment (PPE), table 1, **200-4**
- Blasting operations
 - combustible organic abrasives, **300-2**
 - dust hazards, **200-2-3**
- Bonded and grounded, blast cleaning nozzles, **300-5**

C

- Chapter application, scope, **100-1**
- Cleaning nozzles, blast, **300-5**
- Clean-up, spills, housekeeping, **200-6**
- Coatings, dust hazards, **200-2**
- Concrete surfaces (note), **200-5**
- Collecting equipment, exhaust ventilation systems, **400-4**

Combustible organic abrasives, **300-2**

Composition and toxicity, abrasive blasting operations, **200-2**

Contaminated air, **300-3-4**

Construction, exhaust ventilation systems, **400-2**

D

- Definitions, **500-1-2**
- Design and operation, ventilation systems, **300-3**
- Discharging air, blast cleaning equipment, **400-4**
- Doors, blast cleaning enclosures, table 2, **300-3**
- Dust
 - combustible organic abrasives, **300-2**
 - collecting equipment, exhaust ventilation systems, **400-4**
 - concentrations, permissible exposure limits, **200-3**
 - disposal, **400-4**
 - escaping, blast cleaning enclosures, **300-3**
 - explosion, **200-2, 300-2, 400-3**
 - hazards, respiratory, **200-2-5; 400-2**
 - spills, housekeeping, **200-6**
 - leaks, exhaust ventilation systems, **400-4**

E

- Equipment, dust collecting, **400-4**
- Equivalent protection, personal protective equipment (PPE), table 1, **200-4**
- Enclosures, blast cleaning, **300-3-4**
- Exhaust discharge, blast cleaning enclosures, **300-3**
- Exhaust system, make-up air systems, **300-3**
- Exhaust ventilation systems, all requirements, **400-1-4**
- Exhausted air, **300-3**
- Explosion, dust hazards, **200-2**
- Explosion venting and wiring, table 3, **400-3**
- Explosive dust mixtures, **300-2**
- Eye protection, personal protective equipment (PPE), table 1, **200-4**

Index

Abrasive Blasting

Chapter 296-818 WAC

Index

F

- Face protection, personal protective equipment (PPE), table 1, **200-4**
Filtering face piece, **200-4**
Fire dust hazards, **200-2**, **300-2**
Flammable or explosive dust mixtures, **300-2**, **400-3**

G

- Gloves, personal protective equipment (PPE), table 1, **200-4**
Grounded and bonded, blast cleaning nozzles, **300-5**

H

- Hazards, health
blast cleaning enclosures, **300-3**
combustible organic abrasives, **300-2**
construction, **400-2**
dust hazards, **200-2**
personal protective equipment (PPE), **200-4-5**
Helpful tools, **R-1-6**
Housekeeping, **200-6**

I

- Inspection and maintenance, exhaust ventilation systems, **400-4**
Installation, exhaust ventilation systems, **400-2-4**

L

- Leaks, dust, exhaust systems, **400-4**

M

- Maintenance and inspection, exhaust ventilation systems, **400-4**
Make-up air systems, exhaust system, **300-3**
Mounting, blast cleaning nozzles, **300-5**

N

- National Fire Protection Association (NFPA), exhaust ventilation systems, **400-2**
Nozzles
blast cleaning, **300-5**
combustible organic abrasives, **300-2**

O

- Observation window, blast cleaning enclosures, table 2, **300-4**
Openings, blast cleaning enclosures, **300-3-4**
Operating valves, blast cleaning nozzles, **300-5**
Operations, abrasive blasting, **300-2-5**
Organic combustible abrasives, **300-2**

P

- Permissible exposure limits
dust hazards, **200-2-3**
personal protective equipment (PPE), **200-3**
blast cleaning enclosures, **300-3-4**
Personal protective equipment (PPE), **200-3-5**
Pressure drop gauge, **400-4**
Prohibitions
combustible organic abrasives, **300-2**
dust accumulations, **200-6**

R

- Rebounding, **200-4**
Relief valve (note), **300-5**
Repair and cleaning, exhaust ventilation systems, **400-4**
Replacement, exhausted air, **300-3**
Respirators, personal protective equipment (PPE), **200-4-5**

Abrasive Blasting

Chapter 296-818 WAC

Index

S

- Safety, general, all requirements, **200-1-6**
- Sampling for airborne contaminant concentrations,
(Links) helpful tool, **R-3**
- Scope, chapter application, **100-1**
- Shot, steel, **200-6**
- Slipping hazards, housekeeping, **200-6**
- Small access openings, blast cleaning enclosures,
table 2, **300-4**
- Static pressure drop, exhaust ventilation systems,
400-4
- Supply, personal protective equipment (PPE), **200-3**

T

Tables

- blast cleaning enclosures, table 2, **300-4**
- explosion venting and wiring,
table 3, **400-3**
- personal protective equipment (PPE),
table 1, **200-3**
- Tempered make-up, exhausted air, **300-3**
- Toxicity, abrasive blasting operations, **200-2**
- Types of abrasives used for blasting operations,
helpful tool, **R-4**
- Types of coatings removed in blasting operations,
helpful tool, **R-5**

V

- Ventilation systems, **300-3**
- Venting, explosion, table 3, **400-3**
- Visibility, blast cleaning enclosures, **300-3**

W

- Walkways, clear, housekeeping, **200-6**
- Wet blasting methods, **200-2-3**
- Window, observation, blast cleaning enclosures,
table 2, **300-4**
- Wiring, explosion, table 3, **400-3**
